The **NATURAL ACT** brings you the **ONE-DAY COLD READING & AUDITIONING FOR THE CAMERA INTENSIVE** with New Mexico/Texas-based Industry Veteran, **PRICE HALL**. With over 25 years as a teacher/coach and feature film director (**ARTIST DIE BEST IN BLACK**, starring Malcolm McDowell & Luke Goss), with several new projects in development, Price's skills and insights on how to bring out an actor's absolute best in front of the camera has been honed to a fine point. And dealing with Cold Reading and Auditioning is where it all begins.

Do you feel like you have less freedom in a cold reading than a prepared piece? Do you try to memorize your lines, then worry about forgetting them? Have you lost your place on the page and panicked? Does the phrase *ice-cold reading* strike fear in your heart? If you feel anything less than 100% relaxed with the page in your hands, then your reading is getting in the way of your acting, and is keeping you from getting the work you deserve. The **ONE-DAY INTENSIVE** will teach you how to come alive and work with confidence in any audition situation by incorporating the page into the life of the scene. Walk away with a natural, clear & simple, logical, real-world approach to cold-reading. Stop doing the lines, and start living in the moment, with the page in your hands.
