## **WORKING WITH DIALECTS**

**TWO 1-DAY Workshops to Expand Your Possibilities for Work in Film, Television, Video Games, & New Media in New Mexico**

**PRICE HALL**

Dialect Coach & Actor, **STEVE CORONA** (**DIG, MANHATTAN, THE LONE RANGER, LOVE RANCH**), & Film Director & Coach, **PRICE HALL** (**ARTISTS DIE BEST IN BLACK** starring Malcolm McDowell & Luke Goss), **OFFER** one of the most Unique Opportunities for Gaining an Edge in this competitive Industry of Show Business.

*Your agent just called you for a last minute audition for a new television series: a recurring role. She just emailed you the sides. You jump off the phone, rush to your computer, download the file, and print out the show/character description and the scene. The first word in the first line of the character description stops you in your tracks:*

### **RUSSIAN**

*Of course, you've heard Russian spoken before, you even played around with the accent one time when you'd had a few too many. But, to have to convince someone that you actually are Russian, and to pull it off by tomorrow morning?*

*Where's the vodka?*

**How confident are you in your ability to pull any number of accents from your actor's toolbox on the spot? Actors who CAN, book the role more often than those who can't.**

#### **In this Workshop, you will:**

- ... Learn tips & tricks for gaining and using dialects effectively
- ... Learn to prepare an accent for an audition so that it doesn't become the scene
- Work with an actual director & dialect coach as if on a real set
- ... Learn how to incorporate dialects into your character development
- ... Become more valuable and more marketable

**Be Competitive**

**Increase Your Skills**

**Leave An Impression**

**"Great! Now can you do it again with a \_\_\_\_\_ accent?"**

After this Workshop, your answer will be: **"Yes!"**
